

Please ensure you print this page in A4 at 100% scale for an accurate reading.

You can verify that the scale is accurate if this line is 1 inch long (2.5cm) :

How To Get the Correct Slipper Fit

Place your heel at the bottom line and see how far up the page your toes reach. Your heel and toes must all be inside the same outline.

If your toes go outside the line, that size is too small for you and you should go for the next size up.
